

Safety Field Day Activities

DAY 1

Sandown Racecourse, 591-659 Princes Hwy, Springvale VIC 3171

The safety field day is opened to paid delegates and special guests of AfMA. The day will incorporate active safety demonstrations and provide an opportunity to drive and experience a range of electric vehicles (passenger and commercial).

The field day activities are designed to demonstrate the effects of weight on

vehicles. Participants will be able to feel the difference between an unladen/fully laden and fully laden with a GVM upgrade equipment. These sessions will include light commercial, van and station wagon vehicles.

Cohort groups will rotate through the active safety demonstrations in the morning or afternoon and experience

electric vehicles in the other half of the day if they choose. Spacers are limited and delegates will be contacted in the weeks prior to the conference in order to book their participation in the active safety demonstrations and or the electric vehicles.

	Active Safety Demonstration	ADAS Tech Driver Participation	Electric Vehicle & Hybrids Test Drives	Commercial Electric Test Drives
8.00am	Attendee Registration			
8.30am	Safety Briefing			
9.30am	The impact of weight during corner braking	ABS and AEB driver participation	Test drives must be pre-booked prior to the safety day	Test drives must be pre-booked prior to the safety day
